MONTHLY REPORT FOR THE PHOTO INTELLIGENCE DIVISION  
MONTH OF OCTOBER 1957

A. ACCOMPLISHMENTS

1. Summary: The activity of the Division continued at a high level with most of the effort spent on top priority projects for the DCI, DDI, and DDP. The Division completed a total of 27 reports, memoranda, and miscellaneous working papers. Eighteen papers are in edit, and nine are in reproduction. Of the thirty requirements processed during the month twenty were from ORR. Branches are currently working on 133 requirements. A considerable portion of the activity of the Division was expended in a joint effort working with Navy, and Army photo intelligence teams. The Division is continuing its investigation of new and modified instruments for the exploitation of photographic materials. The third Basic Photographic Interpretation Course began on 8 October. In addition, much time was spent in numerous substantive and technical consultations.

a. Support Staff: The Support Staff processed 30 requirements during the month. One hundred thirty three requirements are assigned and ten are in research. Eighteen reports are in edit, and nine are in reproduction. Much time was devoted to numerous meetings in continuing coordination with Agency and non-Agency components.

b. Special Projects Branch: The branch is continuing its work on keys, production of special graphics and the preparation of working papers.

One detailed report was completed and additional work was accomplished on a DD/P project. A project involving comparison of filter effects, sun angle, and other factors was completed. In addition, much work was accomplished in support of top priority projects assigned to the branch. Work continues on 20 requirements.

c. Geographic Branch: Fourteen memoranda and working papers were completed in October. Eight of the reports were in support of the Economic Area, ORR, three were for the Geographic Area, one was completed for OSI, and two major studies met requirements of OSI, D/CG and the Economic Area ORR. Work includes studies of transportation facilities, urban areas, and various type of industrial installations. The branch is continuing work on 40 additional requirements.

**d. Industrial Branch:** Most of the effort of the branch was devoted to high priority projects in a joint Army-Navy-CIA working arrangement. Work has progressed smoothly and two consultant meetings were held. Considerable effort has been directed toward preparation for additional meetings with consultants to be held in the future. Three memoranda and working papers were issued during the month. Work continues on 45 requirements.

**e. Technical Intelligence Branch:** The major effort of the branch was devoted to support for top priority projects. Work included extensive measurements, slotted templet control extensions, photo rectification computations and preparation of graphics and controlled mosaics. Several computation problems were programmed and solved by the electronic computer. Work continues on the investigation of new and modified instruments and equipment for the exploitation of photographic materials. The Graphics Section has had an extremely heavy work load in rendering support for Division projects. Work is in progress on 13 requirements.
